INTRODUCTION

The purpose of the Hulce / Hulse Families in America Volumes one, two, and three was to compile the known descendants of the two progenitors of the Hulce surname in America. About 94% of the Hulce surnames descend from Elisha Hulce / Hulse 1725 - 1796 from Goshen, NY. Some of Elisha's descendants use the Hulse, Hultz, and Hulcee spellings. Elisha's ancestors were of English origin.

About 6% of the Hulce spelling descend from James Hulce / Hulst 1791 - 1875 from Somerset County, NJ. James' ancestors are thought to be of Dutch origin.

Elisha Hulce and James Hulce / Hulst are not related.

These three volumes are one of the largest compilations on the Hulse surname.

The resources used in this compilation were:

2565. **Linda KOWRACK** was born on 13 Dec 1946 in Lincoln, Lancaster, NE. This was a letter in Sarah Rathjen's possession as of April, 1993.

25 November 1984: "Seasons Greetings from Linda and Chuck Brummund. Once again we find ourselves in a new home with the holiday season upon us. Linda decided we were going to get our Christmas cards out early this year so folks would have our new address. It may not seem early to you, but for us it's a real record breaker. We complain a lot about doing our Christmas cards, but if the truth were known, we can't wait to get the mail each day during the holidays. This has been a year of opportunities and change for both of us. Shortly after last Christmas we got confirmation of our move to Washington D.C., and that started it all rolling. We put the house on the market (a poor market at best), took a house hunting trip, and planned a garage sale to get rid of all those "treasures" we had been hauling around. The garage sale was really essential in that we were moving from a 4 bedroom, 2 car garage, single-family dwelling to a 2 bedroom, no garage townhouse. What a shock to the system that was! It has, however, proven to be the right move. We now have to spend very little time working around the house and that gives us a lot more freedom to do the things we want. Commuting time is the other big shocker - Linda's drive is about 45 minutes each way; Chuck's commute is frequently as long as an hour. Linda's job search was fruitful in that she secured a job with a Swiss company that is opening a new office in the Washington D.C. area, actually the office is at Tysons Corner, Va. which is about 15 miles from where we live. The firm, Swiss Industrial Group or SIG, is a multi-product firm with interests ranging from firearms to cable cars. As they are just getting established, Linda is spending most of her time running around town buying furniture, leasing cars, selecting computer equipment and a myriad of other things that go along with opening a new office. It appears to be a fine organization and Linda has already gotten to do a little traveling for the company. For Chuck, the move has returned him to the data automation business which is where he wanted to be. He has the responsibility for management and continued developement for several intelligence support systems which are widely used by the Air Force and other department of defense agencies. The original developers did such a good job that the systems are very much in demand. Therefore, the hardest part of the job is juggling people and other resources to keep current customers happy while trying to get new systems installed for the agencies that are waiting (sometimes patiently) for us to give them service. And, there are always demands to provide new types of service, so it keeps life very interesting. Hope your year was a good one and we extend to you our best wishes for next year. May it hold challenge, success, love and laughter. Merry Christmas and Happy New Year. Linda and Chuck"
